BHGH STRATEGIES FOR SUCCESS

95% of youth selected to be part of the Boys Hope Girls Hope program are first generation college students, are coming from socioeconomically disadvantaged families or are ethnic minorities. These are academically bright students who are among the top performers in their current low rated, underfunded public schools, but are often lacking challenge or opportunities to grow into their full academic potential.

BHGH Scholar Success Program Provides:

- Scholarships to private and college-preparatory schools
- School supplies, books, uniforms and transportation help
- Tutors, mentors, case managers and social emotional support
- Extracurriculars, enrichment, life-skills and leadership activities
- Support through college completion
- College and Career Readiness which includes exposure to different careers and majors and exploration of strengths and interests.
- Life Preparedness which teaches necessary life skills, focuses on building healthy relationships and provides mental health support.
- Empowered Learning which supports scholars in building resilience, builds foundational study strategies, supports the development of 21st Century Skills and helps them to apply their learning to real-world social and civic issues.
- A long-term program which allows students to learn and build on skills over time, as well as opportunities to apply the skills practically.
